INDICATIONS OF ORIGIN OF GOODS

1. *Requirements in respect of goods imported from abroad specified in column 2 of Part I of the Schedule.*—(1) Subject to the provisions of sub-section (5) of section 117 of the Trade and Merchandise Marks Act, 1958, the classes of goods specified in column 2 of Part I of the Schedule hereto annexed shall, on importation and at the time of sale, whether by wholesale or retail or both, have applied to them in the manner specified in the corresponding entry in column 3 of Part I of the said Schedule,

(a) an indication of the country or place in which the goods are made or produced or of the name and address of the manufacturer, or

(b) where such goods are manufactured by one person for another who are both beyond the limits of India, either an indication as specified in (a) above or of the name and address of the person for whom the goods are manufactured.

(2) Where such goods are made or produced in one country and are contained in packages made or produced in another, the indication shall specify both countries.

(3) Where such goods are partly or wholly made or produced in one country and partly made or produced or finished or processed or embellished or completed in another country or other countries, or where the goods are made of indistinguishable parts or constituents made in two or more different foreign countries, the indication may be expressed as, 'Manufacture of different countries outside India', or 'Produce of different countries outside India' or 'Made abroad', or 'Foreign made'.

(4) Where the name of the place in the indication is identical with, or deceptively similar to, the name of a place in India or if the name is the name of a place in more than one country, such name shall be accompanied in equally large and conspicuous letters and in the English language by the name of the country in which the place is situated.

(5) The above provisions shall be without prejudice to the requirements of counter indication of country of origin, etc. required by or under section 18(e) of the Sea Customs Act, 1878 (8 of 1878).

2. *Requirements in respect of goods produced in India or imported but packed or otherwise processed in India and falling within column 2 of Part II of the Schedule.*—(1) The classes of goods specified in column 2 of Part II of the Schedule hereto annexed shall at the time of sale, whether by wholesale or retail or both, have applied to them an indication that such goods are made or produced in India or at any place in India, or an indication of the name and address of the manufacturer or of the person for whom the goods were manufactured, in the manner specified in the corresponding entry in column 3 of Part II of the said Schedule.

(2) Where such goods are made or produced in a foreign country but are packed or otherwise processed in India or where such goods are sold in containers or coverings made in India both the country or place of origin of the goods and the words 'packed in India' or "processed in India" or 'Containers or coverings made in India' as the case may be, shall be indicated; provided that the use of the words 'container or coverings made in India' shall be presumed to be an indication that the goods were 'packed in India' unless an express contrary indication appears.

(3) Where such goods are processed in India from different foreign ingredients, the indication may be expressed as "Made from foreign ingredients and processed in India".

Provided, however, in the case of drugs, medicines and pharmaceutical products of all kinds where 95% or more of the main or essential ingredients are Indian and the foreign ingredient is not a potent or therapeutically active ingredient, the indication may be "Made in India".

(4) Where such goods are assembled in India with foreign and indigenous parts, the indication of the country of origin to be applied to the goods shall be 'assembled in India'.

Provided, however, in the case of machinery where the foreign parts form a minor and or insignificant portion of the goods (being less than 20% in value), the indication may be "Made in India".

3. *General provisions in respect of goods falling within column 2 of both Part I and Part II of the Schedule.*—(1) The indication of the country or place or the name and address referred to in paragraphs 1 and 2 shall be shown in large and conspicuous letters. The minimum size of the lettering of such indication of the country or place of origin or the name and address shall be not less than two millimetres in height or less than one fourth of the size of the largest letter appearing in the name, word, or trade description applied to the goods, whichever is larger.

Provided however that the minimum size of the lettering of such indication shall be—

- (i) in the case of drugs, medicines and pharmaceutical products or cosmetics and toilet preparations, not less than two millimetres in height or less than the largest letter used in the display of the name of the manufacturer appearing at any place in the label, whichever is smaller;

(2) The indication shall, in cases where any name, word or trade description applied to the goods or the packages thereof is in English or in any language other than an Indian language, be in the English language; and where such name, word or trade description is in an Indian language or languages with or without English, the indication shall be either in the English language or in each one of the languages in which such name, word or trade description appears.

(3) The indication shall be on the same label or part of the covering or goods, as the case may be, to which the name, word or trade description is applied and shall be reasonably near such name, word or trade description. Where the name, word or trade description appears at more than one place on the label, the indication shall be at least in two places. Where a trade description, which is likely to indicate foreign origin or the foreign address of the manufacturer, is applied on the goods made in India or on the packages of such goods, the indication shall accompany, and be adjacent to, or reasonably near, such application. The indication shall not be in a separate label nor shall it be otherwise detachable from the application of the name, word or trade description itself and it shall be applied no less indelibly than the name, word or trade description.

4. *Goods on which marking is impossible or would adversely affect their quality.*—Where due to the smallness of the goods or other cause, it is impracticable to mark on the goods themselves an indication of the country or place of origin or where it is not possible to do so without adversely affecting the quality of the goods or without undue expenditure, the indication may be applied on the package attached to such goods.

5. *Exemptions.*—The following classes of goods are exempted from the operation of this notification:
